

EdCube

EdCube Celebrates Student Learning

EdCube digital portfolios allow students to develop collections of their work to showcase their efforts, progress and achievements.

EdCube is just so easy to use

- Designed for schools by Australian teachers
- A personalised and friendly student interface
- A simple Web and CD publishing tool
- Easy install on Mac & PC
- The ability to compress and manage file size

School Site License from **ONLY \$990** ex GST

The EdCube portfolio software:

- Showcases and promotes the student as a learner
- Allows the student to reflect on their learning
- Fosters conversations about learning
- Has the ability to set and track progress
- Represents what, how & why a student is learning
- Creates a learning profile over several year levels
- Fosters rich assessment and reporting

FREE TRIAL:

www.edcube.net

***EdCube: The only digital portfolio software that automatically
compresses file sizes in folios to manage school networks***
